# THE BEAUTY OF BOTTOM UP ECONOMICS

---

Life is all about giving your best to others. Joy of giving is the essence of spiritual experience on earth!

ALL ARE MY KITH AND KIN

## GROW TOGETHER

Bottom-up economics give importance to individual and small-scale initiatives. Shared economic growth is the idea of this approach. It stands in contrast to top-down economics, which focuses on policies and decisions made by governments or large institutions.

Media has a major role to play in making bottom-up economics beautiful and powerful. Media is like a large vessel that is essential to prepare delicious dishes for a feast of great consequence for a large population.

Bottom-up economics works on potential of individuals to make meaningful contributions to the economy. Creative innovation, Compassionate entrepreneurship and equity in sharing are all part of Bottom Up Economic Model.

Empowering individuals to pursue ideas and passions is the power of bottom-up economics. It fosters a sense of ownership and initiative with every individual in a society by creating roles and responsibilities for everyone.

Bottom-up economics encourages a decentralized approach where multiple small-scale initiatives can thrive simultaneously. Bottom-up economics focuses on local resources, talents, and opportunities, This approach can lead to the creation of sustainable business models, environmentally responsible practices, and a greater focus on social and environmental well-being.

PACE WITH THE TIME

# MEDIUM PACE

There is no point in reaching before the celebrations begin. Hold on...

## Unconscious is constantly working. Conscious mind simply Hurry Up!

People are in a hurry for what they do not know about. They often rush without knowing the doors are yet to get opened up. There is a constant sense of urgency that make people to go for instant gratifications.

Rapid run of technology has accelerated the pace of life. Instant communication, fast internet speeds, the constant flow of misinformation, fake news in the name and favor of all political parties, attempts to divide people in the context of religious sentiments are all outcomes of urgency all over.

People act and react without knowing the realities.

The demand for productivity and efficiency often leads to a hurried work environment, where people are constantly multitasking and trying to meet tight schedules.

Social media platforms and the internet have created a culture of instant gratification, where people seek immediate feedback, validation, and results. This can lead to impatience and a constant need to keep up with the world.

While the fast-paced nature of the world can offer opportunities and advancements, it's important to recognize the potential downsides.

A medium-paced lifestyle helps to make a balance between productivity, relaxation, and overall well-being of everyone involved in the process. Always avoid extremes of a fast-paced lifestyle that is not pacing with the reality of the universe.

Injecting Chemicals to grow fruits faster are similar to the other side of medium pace growth mechanism.

A slow-paced lifestyle can be counterproductive. A medium paced lifestyle strikes a balance that can enhance productivity. It allows you to focus on tasks without feeling rushed or overwhelmed.

Medium-paced living promotes stronger relationships by providing time and attention to connect with others. It allows for meaningful conversations, quality time spent with loved ones, and the ability to engage in activities that foster healthy relationships.

By adopting a medium-paced lifestyle, you can cultivate mindfulness and present moment awareness. It allows you to be fully engaged in activities, and appreciate the little joys of life.

A medium-paced lifestyle helps in achieving a healthier work-life balance. It allows you to dedicate time and energy to your career while also creating space for personal pursuits, hobbies, and quality time with loved ones.

A medium-paced approach is more sustainable in the long run. It promotes longevity by focusing on self-care, balance, and overall well-being. Concept of a medium-paced lifestyle is subjective and may vary from person to person. It's essential to find a pace that aligns with your values, priorities, and personal circumstances, as what works for one individual may not work for another.

FOCUS ON HUMAN CAPITAL

# EFFECTIVE REPETITIVE

Two wealth creation avenues are effective and repetitive. They are Service Industry and Natural Resource Management. Both are Human Intensive. Engage Students to create innovative methods to make the society more vibrant.

## Let Students to Make Models that can be Effective and Repetitive.

Students who are society-centric develop skills and qualities that are highly valued in the professional world. Employers increasingly seek individuals who are socially responsible, ethical, and possess a broader understanding of societal issues. Students with a society-centric approach are more likely to excel in teamwork, leadership, communication, and problem-solving, enhancing their career prospects.

A society-centric mindset encourages students to think beyond their immediate surroundings and consider the broader global community. They become aware of global challenges such as climate change, poverty, and human rights, and understand the interconnectedness of the world. This global perspective nurtures a sense of global citizenship and motivates students to work towards a sustainable and just future.

Fostering a society-centric mindset among students benefits not only the individuals themselves but also creates a more compassionate, inclusive, and proactive society, addressing the pressing challenges of our time.

When students develop a society-centric mindset, they become more actively involved in their communities. They participate in community service, volunteer work, and civic initiatives, leading to the betterment of society. This engagement fosters a sense of responsibility and empowers students to make positive contributions to the world around them.

Being society-centric promotes empathy and understanding among students. They develop an appreciation for diverse perspectives and backgrounds, which helps create a more inclusive and tolerant society. Students learn to respect and value the experiences and needs of others, leading to improved social cohesion and harmony.

By focusing on society, students are exposed to real-world challenges and issues. This exposure cultivates critical thinking and problem-solving skills as they analyze complex societal problems and seek innovative solutions. Students become adept at identifying root causes, evaluating different approaches, and collaborating with others to address social issues effectively.

Engaging with society allows students to grow personally and develop important character traits. They gain a sense of purpose, ethical awareness, and integrity as they navigate the complexities of the world. This personal growth equips them with resilience, adaptability, and leadership qualities that are valuable for their future endeavors.

# Make a move that makes a movement

By [\\_anjuwrites\\_](#)

Participatory Digital Learning Process is a single move that can transform the campus vibes.

Make students to become partners in the teaching process. Share your responsibilities to them and let them use technology to make it an easy process. Giving students an opportunity to participate in the learning process effectively will save lot of time that can be utilized for giving them exposure towards social interventions.

When students teach their peers, they deepen their knowledge in the subject matter. Explaining requires them to organize and articulate their learning. It enhances their learning experience.

Let them also get into real life situations that are relevant to their learning process. Let them use mobile phones for participatory digital learning process. Transformation from Mobile Addiction to right use of Cell phones will have tremendous impact on students. Content thus created can also be used for promotional campaigns of the campus including digital marketing.
