By the TEL - AVIV SPEECH OF DR. APJ ABDUL KALAM
SUGGESTING MEDIA TO BE POSITIVE!

It was in the year 2002, our media mission got into the words of inspiration of Dr. APJ Abdul Kalam. Our Journey was started way back in 1993, when our founder got into the Media profession after his two years career in teaching profession. He was with Rashtra Deepika Ltd. for 5 years and Jana Madyama Prakashana for 2 years before he become one of the pioneers in Internet Journalism.

He had gained professional experience with The New Indian Express and Express group for a period of two years. He got exposure in Time, Space and People Management along with Client and Business Development.

Our Founder was into Media Innovation from the very beginning of his Media Career. As he continued his media mission, he gained proficiency in behavioural sciences such as NLP and Appreciative Inquiry (AI).

He is a Professional member of Enneagram Society of India (ESI) and a Board Member of Indian Society for NLP along with various other positions and specializations.

WHO ARE OUR EDITORS?

OUR EDITORS SHARE OUR MEDIA MISSION

WE COLLABORATE

AND INSTITUTIONS!

UNTIL 18 MAY 2023

*Visionaries who had worked with us
in various capacities in the past can
BE ELEVATED TO BECOME UP TO
CO - FOUNDERS OF GLOBAL TV*

We had the wisdom to know the inability of money to buy visionary editors to lead our media mission. We were actually led by the Media Vision of Dr. APJ Abdul Kalam asking media to become positive and progressive.

We created a new working model by going to the visionaries and by working with them in our joint mission. We worked on principles of mutuality and totality. It is all beautifully and well recorded in the annals of history.

The men and women of substance who had contributed, guided and supported Global TV immensely in our Journey are by default Editors of Global TV in unique capacities according to their choices and preferences.

We follow a very unique system that is very much informal but are very clear when it is about resource management, profit sharing and delegation of responsibilities. We work with great visionaries, dynamic youngsters and dedicated establishments for the cause of a larger good. Our focus is largely on the wellbeing of the bottom line Society (BLS).

CREATING OPPORTUNITIES!

IT IS THE BIGGEST OPPORTUNITY TODAY!!
