# SMALL OR BIG, SUCCESS FOLLOWS PURPOSE.

WHEN YOU ARE DETERMINED AND DEDICATED,  
THE UNIVERSE SUPPORTS YOU.

**D**reams come in different sizes. Some dream of changing their own lives. Others dream of changing the world. But the size of the dream does not decide the outcome. Determination and dedication do.

Success is not reserved for the chosen few. It is available to anyone who is clear about their purpose and committed to it with sincerity.

The universe is full of opportunities, but they reveal themselves only to those who act, persist, and never give up.

As Paulo Coelho beautifully said,

*“ The entire universe conspires to help you achieve your dreams. ”*  
— Paulo Coelho

This is not just an inspiring quote. It is a reminder that when you are aligned with your purpose and work with integrity, the universe—through people, situations, and opportunities—begins to support you.

The secret is not to wait for the perfect time. The secret is to start where you are, use what you have, and do what you can—consistently.

## THE PRINCIPLES THAT CREATE LASTING SUCCESS

The journey of success is strengthened when you live by four timeless principles:

### REGULARITY – Show up every day.

Discipline in daily actions builds momentum. Small steps taken consistently lead to great achievements.

### CONTINUITY – Never break the chain.

Keep going even when results are slow. The power of consistency over time creates extraordinary outcomes.

### CONSISTENCY – Stay aligned with your purpose.

Maintain quality, stay focused, and keep improving. Consistency turns effort into excellence.

### COLLECTIVE PURPOSE – Build together for something bigger.

Engage in meaningful, rewarding, and recreative initiatives. Work in small teams with trust and respect, but aim for a larger purpose that benefits society.

## YOUTH: YOU ARE THE DRIVING FORCE

Dear young friends, the future is not something you inherit. It is something you create. Find a purpose that excites you. Gather like-minded friends. Form a team. Combine your strengths. Support each other. And commit to making a difference. Do not wait for the perfect time. Start with what you have, where you are. Great movements begin with small groups of passionate people. **Be determined. Be dedicated. Be the change.** The world is waiting for what you will create together.

## WORK TOGETHER. GROW TOGETHER.

Small teams can achieve big things when they work with a clear purpose.

Form a team with shared values.

Respect every role and idea.

Innovate, learn, and keep improving.

Think local. Act global. Impact universally.

## A MESSAGE THAT INSPIRED

Dear Sir

I am not the owner of the translation (the publishing house is of both the translation and the title rights in India) BUT in cases like this, if it were me, I would not ask permission and move ahead, providing that the book is freely distributed to language medium schools.

## THE POWER OF PEOPLE, PURPOSE, AND PERSISTENCE

By the Editor in Chief

**Prof. Dr. N. Sridhar Shetty**

Former President, Indian Dental Council

**T**here are cities that grow, and there are cities that evolve with meaning. The difference lies not in infrastructure, but in participation.

Mangaluru stands as a living example of this truth.

A city built by its people does not rise overnight. It grows through regular effort, sustained engagement, and a shared sense of purpose. Beneath its calm coastline and vibrant culture lies a powerful foundation shaped by discipline and continuity.

**REGULARITY**  
Progress begins with regularity. When individuals show up every day with intent, a rhythm is created. Students learn, institutions function, businesses contribute, and society begins to move forward with stability.

**CONTINUITY**  
Continuity ensures that this rhythm is not broken. Generations build upon each other. Values are carried forward. Effort accumulates into progress.

**CONSISTENCY**  
Consistency gives direction. It transforms effort into excellence. It ensures that progress is not random but meaningful and dependable.

But the real strength of a society emerges when people come together.

A progressive city engages its people in meaningful initiatives that are rewarding and recreative. When people find purpose and joy in what they do, participation becomes natural and sustained.

Small teams play a powerful role. They bring focus, accountability, and ownership. Yet, their true strength lies in working towards a larger purpose. When many small efforts align, the result is collective progress.

This is how Mangaluru grows. Through connection. Through contribution. Through people who keep doing.

Progress is not a moment. It is a habit.  
“ Built daily. Sustained collectively. Refined consistently. ”
